The Committee, appointed at the Annual Meeting in June, to consider the expediency of the Town's purchasing the Old Stone Mill Lot, made the following report, which was read and

They beg leave to state that the lot contains nearly two series; that it is most eligibly situated, as the freemen well know, and contains the old Stone Mill, which, as an energialned and uninterpreted refic of the past, gives to said lot a greatly increased value; that owing to the large sallax of strangers, every year, many of schom are building expensive and beautiful residences, in that vionity, the value of real estate vicinity, the value of real estate has been very much augmented, and tradily commands high prices; that it is very desirable that this lot should be is very dealined the Soura and laid out as it public :Park to be seurrounded by a suitable tense; and ornamented with

Your committee would further report that the owners of said lot mak \$10,000 for the same; that if it is purchased by the Town, they will contribute one thousand deliars towards the same; and your committee have every reason to helieve that other gentlemen, who are interested in property in Newwho are interested in property in New-port, would contribute largely towards purchasing and organizating the same; that the owners are determined to sell-raid tract-of land, by by divided into-building loss, at public auction, at a very early day, it it is not otherwise disposed of. Your committee are of opinion that the Town should not al-low so desirable a lot to be said and built upon. If the same can be obtained low so desirable a lot to be sold and built upon, if the same can be obtained for a reasonable-sum by the Town.
They would further say that the eminent Soutptor, Mr. Greenough, has generously offened to place a bust of the distinguished J. Fansimere Cooper in soid Park, it it is purchased by the Town.

In conclusion, your Committee recommend the freemen to appropriate the sum of Rive thousand dollars for the purchase of said lot, the same to be paid out of the Treasury, whenever the balance of five thousand dollars shall be raised by subscription, and the owners are prepared to give the Town a valid title to the same; they further recommend that this, sum he would be the the Town, upon the same, the Town annually paying them an interest of six per cent, per annual upon said sum of Five thous and dollars. Madame Anna Blehop gives a grand Concert at the Ocean House Hall this evening; this is ber first appearance in Newport, and we trust that she will be greeted by nu overflowing nuclence. Madame Buhop's reputation as an eminent artist is so high, that no words of culogy are required to induce people to listen to her glorious notes .-She will be assisted by Bochsa, the world-renowned linepist, who has no competitor on that sweet instrument .-Herr Siede, the celebrated Flutlet, will also pasiet. Altogether, we have every reason to believe that this will be one of the best Concerts which has ever been given here, Madaine Blehop will soon leave the country, and no one should fail to hear her.

. 113 Fourteen more bodies have been recovered from the wreck of the steamer Henry Clay; this makes seventy-three in all, which have thus far been found.

05 Among the visitors in town we notice Mr. Curtis, the popular author of "Nile Notes," &c.

THE CONCERT TO NIGHT .- The celebrated songstress, Anna Bishop, will be heard for the first time (and we fear, for the last) at Ocean Hall, this evening .-All our fashionables, of course, will be there, as the great vocalist, who, in Europe, was so much noticed by Empres' ses, Queens and their courts, never fails to attract so haute roles by her splendid artistic powers and her comme it faut appearance, which are so well defined in the following quotation taken from one of our exchanges : . ;

one of our exchanges:

We had never seen or heard Madams
Bishop, and rejoiced with exceeding
(great joy, (as Mr. Dawes says.) to find
ourselves in her most womanly presence.
The accomplished cantatrice came marvellously wear being beautiful, and
would have been had she not been interesting. With black hair, strongly dewould have been the control of the fined eye-brows, a dark flashing eye, beautiful teeth, a smile well hit with healthy life, a noatril dilating with every motion like that of a delicate blooded and have a full and charming physique, and in a dress of great richnessiand taste, she was certainly a very pleasant vision, and she sung as well as she looked. We heard "Casta Diva" as she looked. We heard "Casta Diva" The first piece ble Artistic effect, and "Sweet Heme," The first was sung with admirable Artistic evincing a magnificent power, and great facility of execution.

The introduction, in a concert, of Scenes Costumes is an excellent idea. and the Dramatic dresses of Madame Annu are said to be magnificent .-Bochsa, once the Harpist of Napoleon and Josephine, will play and the eminent Flutiet also will perform. A great musical treat.

60-Mr. Sartiges, the French Minister, has arrived in town, and taken a cottage for the summer.

Prosecution has at length commenced under the new law. At a late, hour on Wednesday, three men named Christopher Columbus Richardson, Jasae Smith, Jr., and Jacob W. They told quite a long story, in the course of which they alluded to their own valuable experience in excessive liquor drinking, saying that they had seen and felt its pernicious effects, and their whole looks and appearance corroborated fully what they said. After much talk, Jutice Edwards very reluctantly granted the warrants, stating that they might find it difficult to get on officer to serve them. But they were determined to them. The trie of temperance informers and reformers had a great deal to say of Dr. Jewett and his opinions. They belong in East Combridge, and say they are connected with the State Temperance Club. Finding that they could'nt "make it go," there, they stated that they had been to East Cambridge, and got a warrant from Justice Laid to "search and selze" the liquors, &c. (if any were found) at Edmund Train, who keeps near the bridge, but they were no more successful there in finding willing officers. Constable Walsh, like all the rest declines on the same ground. The city government will not take part in the matter, and therefore, the police will not, and the warrants must go to Lowell. The trie of temperance informers and

The constables of the city on masse, The constantes of the city en mane, have waited upon the Mayor, and signified their extreme reductance, if not refusal, to serve a warrant of this kind, unless by order and on the responsibility of the city. They have no fancy for placing themselves in the position of detections at a long and raise tendants at a long suit at law, and risk the result. News of the issue of the warrants was soon whispered abroad, and fast evening it was said that if the and fast evening it was said that it the warrants were ultimately served, very little property would be found.
